

# uCool - Unify Report Archive Solution™

## Unlocking Value from Information

For any company, information is an essential strategic and competitive asset. Whether you need immediate answers to your customer's questions or a comprehensive profile of all past transactions, your company must be able to access current and historic information to remain competitive. But collecting and processing "business-size" volumes of data can be a huge challenge.

### Unify's uCool - The Solution

For nearly 20 years, large, medium and small companies around the globe have depended upon the Unify uCOOL platform to securely store, manage and distribute knowledge across their organization.

### Knowledge in Context

Unify's uCOOL solution securely stores information from multiple sources in a multitude of formats. User defined indexing for all data allows information to be found instantly and quickly retrieved to the user desktop, in its original format.

### Immediate Information

Wherever your users are, they can access their information quickly and reliably through Unify uCOOL's portal application. Report distribution across a dispersed workforce becomes simple, and users only need to access one portal for all their information needs.

### Scalable

There really are no limits on the Unify uCOOL solution! NAS, SAN and optical storage from a variety of vendors are used with our solution – petabytes of data turned into accessible and useful information.

## Features

### Simplicity

Provide a rapid return on investment through fast implementation, with the ability to customize for legacy and future systems.

- Little or no user training required
- Minimal administration
- No relational database needed
- Centralized management
- Automated Information Lifecycle Management

### Storage

Integrates with all storage platforms from all major vendors, supporting:

- Storage Area Networks
- Network Addressable Storage
- Optical Jukeboxes
- Tape Jukeboxes

## HIGHLIGHTS

- **Simple**  
Easy to install, easy to operate, easy to use
- **Secure**  
Easily restrict access to information to users who are allowed to see it
- **Scalable**  
Petabytes of data turned into accessible and useful information
- **Economic**  
Save money on report printing, distribution and storage and use low cost digital storage
- **Extendable**  
Integrate uCOOL data with other applications via web services

## Features

### Security

Supports integration with all major security and authentication methods, including:

- LDAP
- Active Directory
- Single Sign On

Providing security of data, limiting access to information to those authorized to view.

### Compliance

- Preserves content in non-rewritable, non-erasable format
- Automatically verifies the quality and accuracy of the archiving process
- Generates an audit log of the archiving process and user access
- Protects against unauthorized access

### Scalability

- Unlimited users
- Unlimited data volumes
- Unlimited data types
- XML, PDF, Windows & UNIX format text and many legacy data types

### Reliability

For nearly 20 years, thousands of users worldwide have enjoyed easy & continuous access to their company knowledge repository, secured through the Unify uCOOL solution.

Our clients come from all sectors of business, industry and government - contact your local Unify office today and find out how you can join them.

**Unify delivers industrial-strength Archiving solutions purpose-built to help organizations archive, discover and preserve information stored in transactional systems, email, databases and social media systems scattered across the enterprise. With Unify, companies for the first time have complete protection and coverage of all data sources in a single, unified global repository. The Archive tracks all events with 100% accuracy and helps enforce policies for compliance, corporate governance, and reduces time and costs for legal discovery requests.**
